AI for Educators

Received **AI for educators** trophy.

Master Teams

Received **Master Microsoft Teams for any learning environment** trophy.

Scored Questions

They are looking for people who:
use at **least 2-3** of the specified **tools** on a **daily/weekly** basis
AND
people who **share** their learning **daily/weekly/monthly**.

Accessibility Tools

You need personalise learning for students.
Describe how you **leverage Microsoft tools** to increase accessibility for all learners in your classroom.

21 CLD Lessons/Project

That incorporates **Microsoft technology** for improved learning outcome.
Describe your lessons or project with **at least ONE rubric level.**
Create **shared URL to an example** learning artifact.
Name the learning objective that was part of this lesson/unit and **how this artifact** and the tools used **support** that **learning** objective.

Microsoft Educator

Received **Microsoft Educator academy** trophy.

21st century learning design

Received **21st century learning design** trophy.

Use fellow educators to help you **check links** and **review** your **answers**.

Generative AI

You need to know and use generative AI.
Describe a **personal example** of how you used generative AI to help you in your work.

Microsoft Learn Achievements

Check each of the Learning Pathways are represented on the Achievements page before submitting the **URL**.

You have to achieve **60% or above** to move onto the long form questions.

If you have **not met the criteria** you can not move on.

How you have supported both your own learning and the learning and growth of your colleagues?

Share **TWO personal** examples.
They want detailed responses that fully answer the questions that clearly come from you and not from a generative AI tool.
